

Proliferation Assessment Statement. The joint memorandum submitted to me by the Secretary of State and the Secretary of Energy, which also includes other agency views, is also enclosed.

The proposed extension of the agreement for cooperation with the Republic of Indonesia has been negotiated in accordance with the Atomic Energy Act of 1954, as amended by the Nuclear Non-Proliferation Act of 1978 and as otherwise amended. In my judgment, the proposed extension meets all statutory requirements and will advance the non-proliferation and other foreign policy interests of the United States. It provides for the agreement to remain in force for an additional period of 10 years. In all other respects, the text of the agreement remains the same as that reviewed favorably by the Congress in 1980/1981.

Indonesia is a party to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and is fully in compliance with its nuclear non-proliferation commitments under that Treaty.

I have considered the views and recommendations of the interested agencies in reviewing the proposed extension and have determined that continued performance of the agreement for cooperation will promote, and will not constitute an unreasonable risk to, the common defense and security. Accordingly, I approved the agreement on extension and authorized its execution. I urge that the Congress give it favorable consideration.

This transmission shall constitute a submittal for purposes of both sections 123 b. and 123 d. of the Atomic Energy Act. The Administration is prepared to begin immediately consultations with the Senate Foreign Relations and House Foreign Affairs Committees as provided in section 123 b. Upon completion of the 30-day continuous session period provided for in section 123 b., the 60-day continuous session period provided for in section 123 d. shall commence.
